### Women's and Men's Team Competition 2019 to 2021

Based on the 5 best age group placements for males for the Male Team Award and the same for females for the Female Team Award. Teams with less than 5 males or 5 females are not eligible. So if a team had 5 males and each runner placed 1st in their age group, the team would have a total of 5 points, the lowest number of points a team could get.

Lowest number of points wins. If teams tie, both win!
